We don't recruit professionals, WE TRAIN THEM!

Message from the CEO

Rhema Services Agency is able to diagnose and treat all the problems of organization and management of the oil company.

Business in general, and that of the Oil & Gas industry in particular, operates in a constantly changing environment due to the demands of the global economy, the instability of the price of a barrel, the competition and the customer. The sustainable development of the oil company, at least its survival, depends on mastering this environment. Such mastery allows oil companies, from upstream to downstream through the mistream, to know the performance while excelling in customer satisfaction.

Rhema Services Agency, through its *Oil & Gas Training* department, intends to support the oil and services company on the path to excellence by offering it quality services in the field of Training, Consulting and Strategic Studies. , qualitative and quantitative techniques of the projects to be submitted to it. For us, it is about supporting the oil company in its quest for quality, performance, competitiveness and motivation. We have therefore carefully adapted our training and advice to the needs of our customers as well as to market trends.

Made up of a multidisciplinary team revolving around a permanent and qualified nucleus in fields as diverse as Storage, Transport, Distribution, Finance, Human Resources, Management, QHSE ..., Rhema Services Agency is able to diagnose and treat all the problems of organization and management of the oil company.

We remain attentive to our customers to better understand their concerns in order to contribute to their sustainability through advice and training tailored to their ambitions.

General Presentation of Oil & Gas Training Department

The *Oil & Gas training* department of Rhema Services Agency was born from the desire of African professionals and executives in the hydrocarbon industry with relevant experience in organizational management, to synergize their skills to support the leaders and managers of Cameroonian and African oil companies in their quest for sustainable performance.

Our vision

- *To walk together with the company towards the achievement of its objectives.*

Also, Rhema Services Agency, initiator of *Oil & Gas Training* plans to become the ideal partner in the training and capacity building of actors in the upstream / downstream oil chain in Cameroon and Central Africa, with a qualified multidisciplinary team, trained experience and available for the diagnosis, monitoring, support and resolution of all organizational and management problems in an oil company.
